ABHIJEET C

Course   : **B.Tech**, Computer Science & Engineering, 2021
Email   : abhijeetcherungottil1999@gmail.com
Mobile   : 9446236815
PERCENT: 70.3

ACADEMIC DETAILS

COURSE	SPECIALIZATION	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	SCORE	YEAR
CLASS XII	Computer Science	Kendriya Vidyalaya Pattom	CBSE	81 %	2017
CLASS X		Kendriya Vidyalaya Pattom	CBSE	89 %	2015

Subjects / Electives	The Fundamentals of Digital Marketing by Google Digital Unlocked, Flutter Development Using Dart on The App Brewery
Technical Proficiency	HTML + CSS, C Programming, Computer Vision, JavaScript, Flutter, Python3, React.js

SUMMER INTERNSHIP / WORK EXPERIENCE

Intern, Cisco ThingQbator Internship Program (TIP)   Jun 2020 - Sep 2020

Out of 120 teams all over India, My group Anamnesis got selected as one of top 12 team and won .
Our idea is to bring up a user-friendly secure app for the storage of different medical records of a patient in an organized manner. Clients can transfer their clinical reports by choosing the sort, class, and date and important information from the report will be extricated and can be effortlessly seen by the client and even would have visual portrayal like the diagram to improve bits of knowledge in a lesser time. Implemented MVP within 6 weeks

Intern, Neuroplex Private Limited   Jun 2019 - Jul 2019

Worked on Image processing and Convolution Neural Network Face recognition using Dlib Library, Case study of YOLO and how to implement it using Darknet

PROJECTS

Sign Language Translator app (Prototype) - AI / App   Nov 2020 - Present

Recognize Indian Sign Language using Computer Vision, The app translates Sign Language to voice and text
This app uses commonly accepted Indian Sign Language standards. 2 It helps to learn and does
  1. Alphabets/ Numbers: Shows the corresponding alphabet/numbers and their sign in sign language.
  2. Common phrases/sentences: Shows the commonly used phrases like good morning, good night, hello, bye, welcome etc and their sign language since they are commonly used.
  3. Sign language to Text/Audio: The sign language demonstrated by the differently able which be translated into text or audio message for others who don't know sign language.

BitMedi - E-Commerce   Mar 2020 - Sep 2020

Our idea is to bring up a user-friendly secure app for the storage of different medical records of a patient in an organized manner. Clients can transfer their clinical reports by choosing the sort, class, and date and important information from the report will be extricated and can be effortlessly seen by the client and even would have visual portrayal like the diagram to improve bits of knowledge in a lesser time. Implemented MVP within 6 weeks.
Technology Used: Flutter, Django, OpenCv ,OCR

HomeComing - Robotics and AI   Sep 2018 - Mar 2019

1st runner up in Eyantra Robotics competition conducted by IIT Bombay .Made a robot which can distinguish creatures and its natural surroundings Utilizing Image Recognition to identify creatures and its territory were perceived and the position was send off to the robot. The robot place them animals to corresponding habitat.
Technology Used: Python, Pytorch, Emmeded C,Atemga2650

POSITION OF RESPONSIBILITY

Student ambassador - OpenLabs.AI   Aug 2019 - Jan 2021

Handled an AI Community, Mentored students and taught AI, Organized AI stall

AWARDS AND RECOGNITIONS

Top 12 team and won | NASSCOM Foundation   Sep 2020

Out of 120 teams all over India,My group Anamnesis got selected as one of top 12 team and won .

Implemented MVP within 6 weeks

1st Runner-up in E-Yantra Robotic Competition | E-Yantra Robotic Competition   **Mar 2019**

1st Runner-up in E-Yantra Robotic Competition held at IIT Mumbai under MHRD in theme called HOMECOMING.Did project in ATMega 2560 as part of making a robot and ML/DL (Image Recognition using Transfer Learning).

CERTIFICATIONS

CERTIFICATION	CERTIFYING AUTHORITY	DESCRIPTION
Introduction to Flutter Development Using Dart	The App Brewery	The course contains the first 10 hours of the Complete Flutter Development Bootcamp and will teach you all the fundamentals of Flutter development to get you started. We built this course over months, perfecting the curriculum together with the Flutter team to teach you Flutter **from scratch.**
The Fundamentals of Digital Marketing	Google Digital Unlocked	The Fundamentals of Digital Marketing lays the foundation for understanding how to exploit the different digital marketing tools in order to improve businesses value proposition(s) to customers and improve their overall competitiveness. A good understanding of both the emerging digital marketing tools and techniques as well as in insights into web analysis and best practices ensures businesses deliver better and integrated consumer experiences.

COMPETITIONS

Cohort 3   **Sep, 2020**

group Anamnesis got selected as one of top 12 team and won .

E-Yantra Robotic Competition   **Sep, 2019**

CONFERENCES AND WORKSHOPS

FYPM 2018–19

Organized by: **ICFOSS** | Date: **Feb 2019**

ICFOSS is convening the FOSS Young Professionals Meet 2018 - 19 at Uday Samudra Beach Hotel, Kovalam, Thiruvananthapuram during 9 & 10 February 2019. The target audience for this programme include students, young graduates, startup-companies and students awaiting results on completion of their courses.
